Food Flashcard Set

Here is a beautiful set of large, double-sided flashcards that have a picture on one side and the vocabulary word on the opposite side. Great for new introducing and teaching vocabulary, reading, and identifying. These also make great wall decorations in class and can be used in multiple games that include matching, finding, and spelling. These are ready to use without any preparation. To insure they last longer, print them out double-sided and laminate them. These cards for food vocabulary include ingredients and popular dishes.

Here is a list of vocabulary words you will find in this set:
